# Residential Window Cleaning Estimate

## Yo Chris! What are you doing this weekend?

You know the feeling Chris, You wake up on Saturday morning and hear that there is 12 inches of new powder on your favorite slope. Yeah baby, except you need to clean those nasty a\*\* windows in your house, and your gutters are flowing over too. What now? You could just forget the home maintenance for yet another week, but how long can you keep doing that?

## Do you really want to spend it cleaning anything?

Why not do both? That's right, go engage yourself in your favorite weekend activity while we take care of the other stuff that always seems to nag at you when you have better things to do. So grab your ipod, snowboard and some friends and head to the slopes but first grab a phone and call us @ **270-293-5170** to schedule your window or gutter cleaning. Better get going, before the snow melts.

You can call us or do it yourself, it's up to you.
