PROJECT

Clean interior/exterior windows of construction dust and dirt.
Nominal amounts of paint, stucco, and cement will be
removed from glass as safe access allows, and where
possible on frames. It is expected constr. crew removes large
amounts of stuck on material while still wet as they proceed.

CCU NOTES AND SIGNATURE:

Every effort and technique will be used to get windows to satisfactory level as explained under "PROJECT" above. As with all Construction Clean Ups it is understood that exists the possibility of fine hairline scratches noticeable in certain light on the glass from construction debris. Solvents and soaps are used to remove nominal amounts of paint, stucco, etc., along with non-abbrasive scrubbers - and clean razor scrapers if needed judiciously. Super Sparkle Window Cleaning and associates are not responsible for inherent minute scratches on glass from construction clean ups.
