How to prepare for your cleaning

Thanks for choosing us to clean your windows! We want your experience to be as stress- and hassle-free as possible, leaving you with both sparkling windows *and* a smile. Please take a moment to review the checklist below, which explains how to prepare for your cleaning:

- ☐ Take note of the following items and please be sure to let us know of them on the day of your cleaning:
 - Tints, films, and filters that have been applied to the glass
 - Damage such as broken frames, hinges, and cracked glass
 - Heat-treated or tempered glass
- ☐ Remove items from window sills.
- ☐ Remove any window treatments like curtains or blinds that obstruct the window or that you wouldn't want getting wet.
- ☐ Move any furniture that's blocking windows. (If you need a hand, just let us know and we can add that service to this estimate.)
- ☐ Make sure any gates and doors we might need are unlocked.
- ☐ Decide on the water source you would like us to use.
- ☐ Secure your pets.

We really appreciate your reviewing our checklist. Feel free to give us a call if you have any questions. See you on cleaning day!
